

# Update 2009: The MAR Services site has come a long way in the past 10 years.

## MAR Services Oilfield Site

Cankton, Louisiana

MAR was a former nonhazardous oilfield waste disposal facility regulated under Louisiana State Statute 29B. Project Navigator, Ltd. assisted the PRPs assess, design and construct the remedy. The work is now complete and the site is in OM&M.

Project Navigator's work included fate and transport modeling, sampling, remedy scoping negotiations with Louisiana DNR, community relations, PRP briefings, conceptual design, and then construction management of a remedy involving reagent addition, capping and the installation of a long-term monitoring network.
